ADVANTAGE

- Allows for opening of full height swing frames or escutcheons when fitted
- PIR movement sensor for power efficiency on optional door switch
- Can be daisy changed for suites
- Mounted directly to 19" rack rails
- 300mm light = 280 (lm) lumens
- 500mm light = 460 (lm) lumens

MATERIALS

- Body – zinc coated steel
- Thickness – 1.6mm

FINISH

- Powdercoated Mist Blue (white)

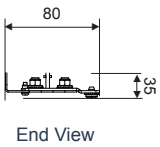

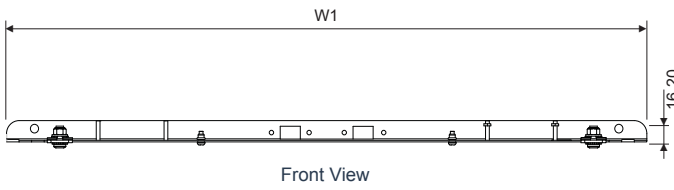

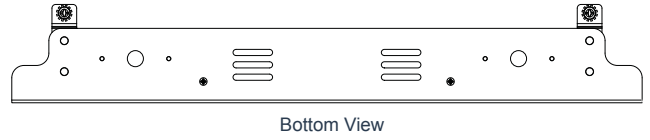

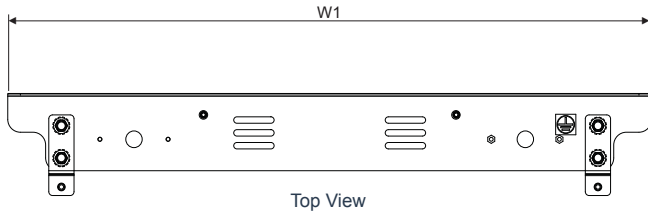

DID YOU KNOW?

An optional PIR motion sensor is available with the iLINQ light kits. This sensor will activate the light when the enclosure is opened. Light will turn off when not in use.

Light Kit

LIGHT BRACKET

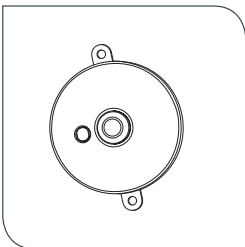

HELPFUL HINT:
BRLEDK05 and BRLEDK03
are required when daisy-
chaining lights together.

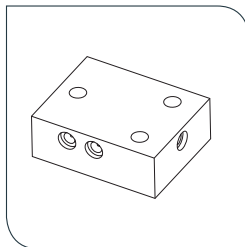

3.0 Assembled to Order
