

BRILLIANT

...the latest in security cabinet solutions

Data Cage

Enhanced security solutions for data centre environments.

- Designed to provide a method of segregating customer racks and equipment into defined zones in a facility that contains multiple users.
- Suitable for when a high level of security is required inside a data facility.
- 1.6mm thick zinc coated steel panels.
- 50 x 50mm RHS supports.
- Aluminium door section for weight saving.
- Large open mesh pattern to maximise airflow and visibility.
- Sliding or hinged doors.
- Customer supplied locking mechanism.
- On-site consultation and installation.
