

# Horizon Roof & Plinth

B&R Horizon metering enclosure accessories, allowing use in a wider range of environments.

 Made in AUSTRALIA

## Horizon Roof

- Designed for use where the metering enclosure is fully exposed to the elements.
- Complies with supply authority rules and regulations.
- Suitable for use with all Horizon meterboxes (485mm wide, galvanised steel).
- Provides increased protection for electrical equipment inside the metering enclosure.
- Product design allows ventilation providing solar sun shading for the enclosure.
- Easy to retro-fit - only two holes to be drilled.
- Manufactured from 1.0mm galvanised steel.
- Powdercoated RAL7035 Light Grey.

## Horizon Plinth

- Designed for use when the metering enclosure is not able to be wall mounted.
- Complies with supply authority rules and regulations.
- Suitable for use with all Horizon meterboxes (485mm wide, galvanised steel).
- Easy access for bolting to concrete foundations.
- Plinth cover leaves no visible fixing points.
- Manufactured from 1.2mm galvanised steel.
- Powdercoated RAL7035 Light Grey.

S20 with Roof & Plinth attached.  
All items are sold separately.
