

Arowana Series LED

Linear light fitting with energy efficient LED for use in Zones 1 & 2, 21 & 22 applications.

- Suitable for use in petrochemical, metallurgical, power generation and manufacturing industries.
- Can also be used in a large variety of applications including oil refineries, offshore production facilities, drilling platforms, field depots, chemical plants, grain silos, flour mills, powdered milk production and handling storage mills.
- Osram LED source.
- More light, less power.
- Reduces the number of luminaires or add more light.
- Shock and vibration resistant.
- High strength copper-free aluminium alloy enclosure.
- Separate termination compartment for ease of connection and maintenance.
- Available in 18W and 30W power options.
- Protection Ratings
 - Ex d IIB T6 Gb
 - Ex tb III C T80°C Db IP66
- Ambient Temperature
 - 40°C ~ +55°C
- Certification
 - IECEX CQM 12.0034X
- Manufactured from copper-free aluminium alloy.
- Powdercoated Window Grey RAL7040.
